14. Risk Management (Rate the Risk using the Matrices on the following pages)

Detail the risks and hazards that SLSQ members maybe exposed to as well as what controls, management or mitigation strategies that you intend to implement (Contact SLSQ State Office for Assistance)

Risk or Hazard	Risk	Likelihood	Consequence	Rating	Suggested Control or Risk Mitigation	Person(s) Responsible	Due Date
<i>Slip, Trip and Fall Hazard-objects in front of marquee entry</i>	<i>Serious injury to SLSQ member</i>	<i>Possible</i>	<i>Moderate</i>	<i>Medium 52</i>	<i>Members to be situational aware, remove any obstructions etc</i>	<i>All members</i>	<i>Date of Event</i>

Consequence by Risk	Insignificant	Minor	Moderate	Major	Catastrophic
Strategic	No stakeholder or lack of public interest, Minor, non-deliberate, breach of procedure, contract or regulatory obligations, Little to no cost implications for SLSQ, No or minimal impact on the environment, No reporting required.	Public and stakeholders uninterested or undecided but accepting of information/decisions, Moderate, non-deliberate, breach of procedure, contract or regulatory obligations, Minimal site impact easily containable, Environmental impact report is required, Regulator imposing a low statutory penalty, Low cost implications for SLSQ.	Concerns expressed by stakeholders and/or public at a regional level and loss of trust and confidence in operations on a particular issue (non life threatening, Action results from commercial loss (regulator imposing a moderate statutory penalty, moderate cost implications able to be absorbed by SLSQ, breach of Contract, regulatory or common law obligations that also includes a deliberate breach of a procedure, contract or regulatory obligation, moderate cost implications able to be absorbed by the organisation), Moderate, temporary damage to habitat or environment, May incur cautionary notice or infringement notice.	Concerns expressed by stakeholders and/or public at a national level by public and loss of trust and confidence in operations on a particular issue, Actions resulting from an impact on the public (the public bringing legal action ;not a class action, regulator imposing maximum statutory penalty, major cost implications that the organisation will need to seek additional funding to meet, major breach of Contract, regulatory or common law obligations that impacts on a individual / discrete organisation of the community), Long term or permanent damage to habitat or environment. Penalties or compliance order incurred, Prosecution for minor infringements.	Sustained and widespread concerns expressed by public or stakeholders and/or including all levels of Government leading to a loss of trust and confidence impacting whole of operations, Actions resulting from an impact on the public (the public bringing class action, major cost implications unable to be met by SLSQ, major breach of contract, regulatory or common law obligations that impacts on a region of the community), Substantial permanent damage to habitat or environment, Serious or repeated breach of legislation or licence conditions, Cancellation of licence, Prosecution for serious infringement
Operations	Injury requiring first aid, Minor skills impact, Minor damage or vandalism to asset, Minimal impact on noncore business operations. The impact can be dealt with by routine operations, corrective action and training.	Injury or illness requiring medical treatment or becomes a Lost Time Injury, Minor impact to capability, Minor damage or loss <2.5% of total assets, Some impact on business areas in terms of delays, systems quality but able to be dealt with at operational level , process modification and skills development	Injury requiring hospitalisation or an incident requiring specialist medical treatment, Unavailability of core skills affecting services, Damage or loss of <12.5% of total assets, Impact on SLSQ resulting in reduced performance such that targets are not met. SLSQ's existence is not threatened, but could be subject to significant review/change to operations.	Single fatality (outside flags), multiple serious injuries, Unavailability of critical skills of personnel, Extensive damage or loss <30% of total assets, Breakdown of key activities leading to reduction on performance, Survival of the project/activity or SLSQ is threatened.	Single fatality (inside flags), multiple fatalities Protracted unavailability of critical skills/people, Destruction or complete loss of <50% of asset, Critical failure(s) preventing core activities from being performed, The impact threatens the survival of the project or SLSQ.
Financial (Gain or Loss)	Minor impact on project budget	1% of project budget	1%-5% of project budget	5%-10% of project budget	Exceeds 10% of project budget
Information	Compromise of information otherwise available in the public domain	Minor compromise of information sensitive to internal departments or specific club	Compromise of information sensitive to SLSQ's operations	Compromise of information sensitive to SLSQ's interests	Compromise of information significant ongoing impact

Likelihood	Qualitative	Quantitative	Ratio
Almost Certain	Is expected to occur in most circumstances	Has occurred on an annual basis in SLSQ in the past or the circumstances are in train that will cause it to happen	More than 1 per year
Likely	Will probably occur in most circumstances	Has occurred in the last few years in SLSQ or has occurred recently in other similar organisations or circumstances have occurred that will cause it to happen in the next few years	Once per year
Possible	Might occur at some time	Has occurred at least once in the history of SLSQ or is considered to have a 5% chance of occurring in the next few years	1 in 10 years
Unlikely	Could occur at some time	Has never occurred in SLSQ but has occurred infrequently in other similar organisations or is considered to have a 1% chance of occurring in the next few years	1 in 50 years
Rare	May occur only in exceptional circumstances	Is possible but has not occurred to date in any similar organisation and is considered to have very much less than a 1% chance of occurring in the short term	1 in 100 years

Likelihood	Consequences				
	Insignificant	Minor	Moderate	Major	Catastrophic
Almost Certain	Medium 40	High 48	Critical 72	Critical 84	Critical 100
Likely	Low 24	Medium 44	High 56	Critical 80	Critical 96
Possible	Low 12	Low 28	Medium 52	High 76	Critical 92
Unlikely	Low 8	Low 20	Low 36	Medium 64	High 88
Rare	Low 4	Low 16	Low 32	Low 60	Medium 68

Risk Level	Risk Acceptance/Tolerability	Strategic Action Plan/Risk Mitigation Strategy
Low (4-60)	<i>Acceptable with periodic review</i>	Manage by routine procedure
Medium (40-68)	<i>Tolerable with periodic review</i>	Exposure to risk may continue provided it has been appropriately assessed, has been mitigated to "So Far As Reasonably Practicable", and is subject to periodic review to ensure that risk does not increase. It would be appropriate that measures to achieve long term further reduction to the risk be considered.
High (48-56)	<i>Tolerable with continual review</i>	Unnecessary exposure to the risk must be discontinued as soon as it is reasonably practicable and continued exposure would only be considered in exceptional circumstances. Risk controls must be applied as part of a documented risk management plan that is continuously reviewed.
High (76-88)	<i>Intolerable without treatment</i>	Exposure to risk should be discontinued to as soon as reasonably practicable. Risk controls must be applied as part of a documented risk management plan that is continuously monitored and reviewed.
Critical (72-100)	<i>Intolerable</i>	Exposure to this risk would normally be immediately discontinued except in extreme circumstances. The decision to tolerate risk must be made by the Senior Management Group, the CEO and the Board after being subjected to as much risk management rigour as practical, unless dire operational needs preclude so.
